REMAKE & WARRANTY POLICY

The cost for fabricating custom made dental appliances can not be refunded. A credit may be issued by Dental Lab Concepts (DLC) directly to a lab/dentist's account when cases do not meet DLC 's exceptional standards for quality, function and aesthetics.

Remake Policy

All remakes will be at no charge if received within 30 days of the invoice date except under the following circumstances:

1. DLC inquired about the die, margin or impression. However, the lab/dentist approved and requested completion of the case.
2. DLC requested a try-in, but the lab/dentist declined and asked for a completed case.
3. The teeth are re-prepared.
4. There is a shade change different from the original request.
5. The partial denture fits the master cast.

For eligible remakes within 30 days but without the original case, DLC shall remake these cases at 100% of the retail price of the restoration at the time the request is made. If the original model and dental restoration are returned within 60 days from the original invoice date, DLC will issue a 100% credit to the lab/dentists account.

Any credit balance on a DLC account must be used for lab services within 60 days from the date of issue or it expires.

Warranty of Work

DLC guarantees its work for one year against defects in materials and craftsmanship. The following appliances and services, however, are not covered by any warranty, because of their temporary or delicate nature:

- Acrylic Temporaries
- Veneers
- Stayplates
- Masel Crowns
- Immediate Dentures (see below)
- Premium Dentures (see below)
- Valplast (see below)
- Rush Fees

DLC guarantees Valplast for life against breakage; normal wear and tear (including discolorization) is excluded. It is recommended that Valplast should be cleaned daily using a removable dental appliance cleaner. For any type of complete or partial denture (including immediate and premium dentures), no remake nor warranty applies unless the case was fabricated together with a wax try-in.
